Freestanding 19" racks

The freestanding 19" racks are standard equipped with a tinted safety glass front door and a metal back door. A perforated front door is optional. Both are supplied with a lock and two keys. The side panels can be easily removed due to the quick release system. If required the side panels can be locked as well.

At the top and bottom of the rack preparations have been made for cable entry. The racks are shipped with castors and levellers for positioning and fans for extra cooling.

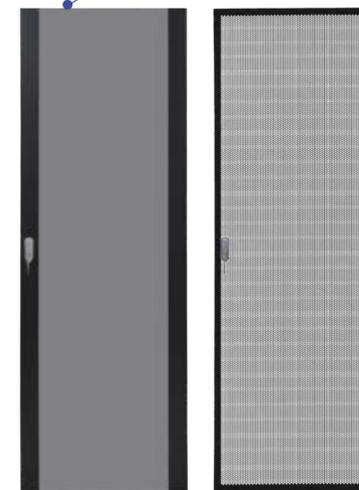

Wall Mount 19" racks

The wall mounted racks are also equipped with a tinted safety glass door and a lock with two keys is supplied. A L-rail set is provided with each wall mounted rack.

Our WCD- series is also double-hinged, allowing easy rear access for simplified installation and maintenance.

Equipped with a tinted safety glass or perforated front door.

Accessories

T-racks offers a wide range of accessories for 19" racks. A variety of accessories is available for both wall-mounted and freestanding racks. The assortment includes products such as doors, 19" drawers, vented and blank panels, and sliding shelves.

T-racks

What you see is what you get.

www.t-racks.eu

What you see is what you get.

At T-racks, what you see is exactly what you get. T-racks provides a reliable solution for the safe, organised and efficient storage of audio and IT equipment in standard 19" racks.

Every cabinet is delivered fully assembled and ready for use: complete with doors, castors, adjustable feet and integrated fans. A full range of compatible accessories is available to expand and customise your installation.

All commonly used sizes are available directly from stock at our warehouse in the Netherlands. Orders placed on weekdays are typically delivered the next business day.

Equipped with a tinted safety glass front door.
